

Commercial Refrigeration

IRS REFRIGERATION

IRS Refrigeration is focused upon the Horticultural, Food Processing and Refrigerated Transport industries, specialising in the Installation, Repair and Servicing of food processing facilities, cool rooms and freezer rooms, and refrigerated shipping containers.

IRS Refrigeration is the only company in South Australia with on-staff mechanics for back up service for containers purchased and hired.

IRS is a totally reliable refrigeration service contractor providing cost effective refrigeration solutions and has built its reputation by providing quality service to businesses that recognize the value of a broad range of experience which includes design and engineering capacity, electrical qualifications, installation, maintenance, service and repair excellence. All our mechanics are experts in fault finding and servicing.

IRS reputation is based upon recognising the importance of proper evaluation of customer requirements, a network of reliable suppliers and backed up with quality refrigeration mechanics, available 24 hours, 7 days.

IRS takes pride in its reputation by working in partnership with our customers to achieve the best possible service; our customers value the prompt, professional service we provide.

IRS services customers in the Adelaide metro and outer areas and has mechanics based in Renmark as well as customers throughout South Australia and the Northern Territory.
