

Containers for Sale and Hire

IRS REFRIGERATION

IRS Refrigeration provides temperature controlled environments to ensure storage conditions are suitable for all products, in all conditions.

IRS Refrigeration Sells and Hires the most flexible containers, in a variety of sizes, conditions and modifications. We work with to define what is ideally suited to your needs, for what you are storing, where you are storing, the space available and what power is accessible.

If your products need to be stored in high humidity or low humidity, at more than +20°C or less than -20°C, **IRS Refrigeration** containers will do the job. If you need the container to be a blast freezer or produce ice in the container **IRS Refrigeration** has the expertise to make it happen. If you need easy access and extra security after hours we will install the most suitable doors and security.

We stock and supply the most reliable and efficient containers in South Australia, maintained by our qualified on staff mechanics.

IRS Refrigeration offers a competitive price to Buy or Hire. Or if you prefer we also offer various payment options, including our "Hire to Buy" arrangement. It is all about what best suits you
